Profile

Results-driven Frontend Engineer with strong expertise in building modern, user-friendly web applications using React.js, Vue.js, and TypeScript. Skilled in creating responsive designs, optimizing performance, and implementing clean, maintainable code. Adept at collaborating with cross-functional teams to deliver high-quality products that meet both user and business needs. Experienced in working on educational platforms and delivering complex features with attention to detail and scalability. Passionate about learning new technologies and delivering exceptional user experiences.

Experience

Informatique Company   Dec 2023 – Present
Front End Developer   *Vue.js*

- University Admission & Academic Management System – Developed a web-based platform for a university to streamline student admissions and academic data management. The system allows students to register and submit personal details online, while enabling staff to manage student records, control course enrollment, and update academic information.
- **Role:** Designed and implemented responsive, user-friendly interfaces; developed dynamic forms for student registration; integrated APIs for secure data handling; and optimized workflows for staff operations.
- **Tech Stack:** Vue.js,Pinia,vuex, TypeScript, REST APIs, Bootstrap, Material UI.

Mallim Company (Part Time)   Feb 2024 – Present
Front End Developer   *React.js*

- Financial Transaction Management & Verification System – Developed a secure platform for managing client financial data, retrieving transaction histories, and verifying the validity of customer transfers. The system ensures data integrity, detects discrepancies, and streamlines the process of handling and auditing financial operations.
- **Role:** Built and optimized responsive front-end interfaces for transaction management; integrated APIs for real-time data retrieval; implemented validation logic to ensure transaction accuracy; and enhanced user workflows for finance teams.
- **Tech Stack:** React,Cognito, TypeScript, REST APIs, Bootstrap, Material UI.

HugaTech Company   Jan 2023 – Dec 2023
Front End Developer   *React.js*

- Social Media & Local Discovery Application – Developed an interactive platform that enables users to search for nearby restaurants, share reviews and opinions, post about lost items, and rate services or products. The app fosters community engagement through short posts similar to Twitter, allowing real-time recommendations and interactions.
- **Role:** Designed and implemented responsive user interfaces; developed location-based search functionality; created components for posting, commenting, and rating; and optimized data fetching for real-time updates.
- **Tech Stack:** React.jsRedux Toolkit, TypeScript, REST APIs, Bootstrap, Material UI.

Idea Space Company (Sponsored by Assiut Oil Refining Company)   Nov 2024 – Dec 2024
Frontend Instructor   *React.js*

- Delivered a complete Frontend Development track to university graduates, covering HTML, CSS, JavaScript, React.js, and related development tools.
- Designed and conducted hands-on exercises, real-world projects, and coding challenges to reinforce learning outcomes.
- Mentored participants in applying best practices for building responsive, user-friendly web applications and collaborating with modern development workflows.

Education

Computer and information Technology (Software Engineering)   Sep. 2017 – May 2021
Asyut University   *good*

Internship

FullStack Python (ITI)   Apr 2022 – Oct 2022

Skills

- Ability to manage multiple tasks and meet deadlines.
- Efficiently prioritize tasks in a fast-paced environment.
- Ability to debug and troubleshoot complex issues.
- Strong analytical skills to break down and solve problems.
- Effective verbal and written communication skills.
- Ability to collaborate with cross-functional teams including
- designers, backend developers, and product managers.
- Passion for staying updated with the latest trends and best practices in frontend development.
- Willingness to learn and adapt to new
- technologies and tools.
- The ability to analyze a situation, identify challenges, and devise effective solutions. This often involves critical thinking and creativity.

Technical Skills

- React.js
- Vue.js
- Redux Toolkit
- Vuex
- Pinia
- Restful Api
- TypeScript
- Tailwind
- Sass
- CSS Framework
- Html5,CSS3
- Javascript
- Postman
- Formik
- WebSocket
- Material ui
- GitHub
- Azure Devops

Projects

Education | *React, Redux toolkit, Restful Api,bootstrap,css,html*   **October 2022**

- Demo: Education

- ○ GitHub-Code

Bakery | *React, Redux toolkit, Restful Api,sass, ,bootstrap,html*   **December 2022**

- Demo: Bakery

- ○ GitHub-Code

Sama Furniture | *React, Redux, Restful Api,css,bootstrap,html5*   **September 2022**

- Demo: Sama Furniture

- ○ GitHub-Code

My Portfolio | *React, Redux ,CSS,HTML5,Bootstrap*   **January 2023**

- Demo: My Portfolio

- ○ GitHub-Code

Weather | *Vue, Vuex, ,CSS,HTML5,Bootstrap*   **December 2023**

- Demo: Weather

- ○ GitHub-Code

To Do list | *React, Redux ,CSS,HTML5,Bootstrap*   **October 2022**

- ○ GitHub-Code

Pharmacy | *React, Redux Toolkit,Restful Api ,CSS,HTML5,Bootstrap*   **February 2022**

- ○ GitHub-Code

Care Hospital | *React, Redux,Restful Api ,CSS,HTML5,Bootstrap*   **August 2022**
